

## Digital Library

Link to Digital Library - <http://repository.tamu.edu>

### CATALOG

ESL faculty, staff and students have written hundreds of articles, technical reports, papers, and dissertations. A catalog lists the publications going back to 1979 and indicates the document type. Technical reports (TR), Published Articles (PA), and Theses and Dissertations (TH) have been scanned into PDF files and can be downloaded from our host site at the Digital Repository at Texas A&M University. Only some of the papers, theses, and dissertations are available on this site due to copyright restrictions. For information on the publications not available in the Digital Repository, please contact the ESL Digital Library Manager through this link: [E-Mail](#)

Most of the Conference Proceedings of ESL's 3 conferences listed below are now online and can be accessed from the Digital Repository website (above).

IETC - Industrial Energy Technical Conference

H&H - Symposium for Improving Building Systems in Hot & Humid Climates

ICEBO - International Conference for Enhanced Building Operations
