- eCalc Emissions & Energy Calculator

The Senate Bill Emissions & Energy developed by the Energy Systems Lab.

- International Code Compliance Calculator (ICCC)

International Code Compliance Calculator - Calculates "Above Code" energy compliance for NCTCOG and Texas.

- The Texas Commission on Environmental Quality (TCEQ)

The environmental agency for the state. The TCEQ has approximately 3,000 employees, 16 regional offices, and a \$463.9 million annual appropriation budget for the 2005 fiscal year (including both baseline and contingency appropriations). Most of the budget is funded by program fees (\$392.2 million or 84 percent). Federal funds provide \$40.3 million, or 9 percent; state general revenue, including earned federal funds, provides \$26.4 million, or 6 percent; and other sources provide the remaining \$5 million, or 1 percent.

- Public Utility Commission of Texas (PUC)

Mission: The Public Utility Commission of Texas is to protect customers, foster competition, and promote high quality infrastructure.

- U.S. Department of Energy (DOE)

Energy Strategic Goal: To protect our national and economic security by promoting a diverse supply and delivery of reliable, affordable, and environmentally sound energy.

- Texas State Energy Conservation Office (SECO)

Mission: State Energy Conservation Office is to maximize energy efficiency while protecting the environment. SECO administers and delivers a variety of energy efficiency and renewable programs which significantly impact energy cost and consumption in the institutional, industrial, transportation and residential sectors.

- U.S. Environmental Protection Agency (EPA)

EPA protects human health and the environment through the regulatory process and voluntary programs such as Energy Star and Commuter Choice. Under the Clean Air Act, EPA sets limits on how much of a pollutant is allowed in the air anywhere in the United States. Although national air quality has improved over the last 20 years, many challenges remain in protecting public health and the environment. EPA's goal is to have clean air to breathe for this generation and those to follow.

- International Code Council (ICC)

Mission: Providing the highest quality codes, standards, products, and services for all concerned with the safety and performance of the built environment. The International Code Council (ICC) was established in 1994 as a nonprofit organization dedicated to developing a single set of comprehensive and coordinated national model construction codes. The founders of the ICC are Building Officials and Code Administrators International, Inc. (BOCA), International Conference of Building Officials (ICBO), and Southern Building Code Congress International, Inc. (SBCCI).

- American Society of Heating, Refrigeration and Air-Conditioning, Engineers (ASHRAE)

Mission: ASHRAE will advance the arts and sciences of heating, ventilation, air conditioning, refrigeration and related human factors to serve the evolving needs of the public and ASHRAE members.

- North Central Texas Council of Governments (NCTCOG)

The North Central Texas Council of Governments (NCTCOG) is a voluntary association of, by and for local governments, and was established to assist local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. NCTCOG's purpose is to strengthen both the individual and collective power of local governments and to help them recognize regional opportunities, eliminate unnecessary duplication, and make joint decisions.

- Alamo Area Council of Governments (AACOG)

Mission: To enhance the lives of all residents of the Alamo Region by working in mutual respect and partnership with all levels of government, the business sector, and the community at large to meet regional challenges and to create regional strengths.
